NOTES

1. *Publication.* The official Air National Guard Register contains the names of federally recognized officers and warrant officers of the Air National Guard of the various States, Territories, and the District of Columbia. All information published herein is current to and including 31 December 1957.

2. *Arrangement.* The register is arranged in alphabetical order in three sections. The first section is an alphabetical roster of all federally recognized officers and warrant officers. The second section is an alphabetical roster by State of all federally recognized officers and warrant officers. The third section is an alphabetical roster by State of losses during 1957 of all federally recognized officers and warrant officers.

3. *Data.* The data shown include the name of the individual, grade, service number, State in which the officer holds his appointment, date of Federal recognition in the grade shown, date of birth, education and specialty code (E & S Code), pay date, promotion service date (PSD), and total Federal commissioned service date (TFCSD).

a. The pay date is that date from which longevity is computed. Where military status for pay purposes has been continuous, the pay date is that of original entry or acceptance, except for additional longevity as authorized by law for education and internship in the case of medical and dental officers. Where the service has not been continuous, the pay date is later than the date of original entry by a period equivalent to the break or breaks in service.

b. The promotion service date (PSD) reflects all service in an active status in current permanent grade, and in addition, any constructive credit that may have been awarded in that grade pursuant to Section 201, Reserve Officer Personnel Act. All breaks in service or time spent in an inactive status during which promotion was prohibited are excluded. Method of computation is explained in AFR 45-38, as amended.

c. Total Federal commissioned service date (TFCSD) is that date which reflects all periods of federally recognized commissioned service, whether active or inactive. When the commissioned service has been continuous and federally recognized, the TFCSD is the date of acceptance of commission (or if Air National Guard, the date of Federal recognition). When the commissioned service has not been continuous or federally recognized,

the TFCSD is later than the date of original commission by a period equivalent to the break or breaks in federally recognized commissioned service.

d. The TFCSD and PSD are not shown in all cases for officers on extended active duty, nor for those in the grades of general, colonel, or lieutenant colonel, as officers in these grades are not mandatorily considered for promotion under any provision of law.

e. The TFCSD column is blank for all warrant officers. A total military service date (TMSD) is used for warrant officers in lieu of a TFCSD, and is, in all cases, the same as the pay date.

f. Education and Specialty Code:

- A. Command Pilot
- B. Senior Pilot
- C. Pilot
- D. Senior Aircraft Observer
- E. Aircraft Observer
- F. Chaplain
- G. Medical
- H. Dental
- I. Veterinary
- J. College Degree
- K. Senior Navigator
- L. Navigator
- M. Chief Flight Surgeon
- N. Senior Flight Surgeon
- O. Flight Surgeon

4. Where, in the opinion of the officer concerned, the information shown in any entry opposite his name is incorrect, notification, with evidence to support the claim, will be furnished the Chief, National Guard Bureau, Attention: Personnel Branch, Air Force Division.

5. Warrant officer grades in this Register are coded as follows:

<i>Grade</i>	<i>Code</i>
CWO W-4	W-4
CWO W-3	W-3
CWO W-2	W-2
WO W-1	W-1
